I don't know why you don't trust us. I get sick and depressed because of your situation- one day was working from 5AM till 9PM, then once got home, saw an email from Gord in regard to our letter to the Dean, worked on that and submitted at 10:30PM- why you don't trust us, why?- I can not understand.

If you submit your own letter, then you should not be optimistic about the outcome of our letter at all- now is the time that we (your advisors) can save you. Your case made me sick and old- please don't send your own letter to the Dean, if you want to get out of this killing situation.

My prayers go with you, but please be patient,
